Precision Ground, Food Processing Bandsaw & Bandknife Blade
37% Cleaner Cut, Superior Yield

FOOD BANDSAW - FRESH OR FROZEN MEAT

Precision ground, hard tooth, bright carbon steel bandsaw for general purpose fresh or frozen meat processing. The razor sharp hook teeth allow maximum penetration, whilst the unique process specific tooth set reduces waste for superior yield. All material is supplied fully coated with industry approved food grade mineral oil.

WIDTH & THICKNESS		TEETH PER INCH			
inches	mm	fresh meat		frozen meat	
1/2 x .020	13 x 0.50	4	6		4
5/8 x .018	16 x 0.45				4*
5/8 x .020	16 x 0.50	4	6*	VP (2.5)	4
5/8 x .022	16 x 0.55	4	6*	VP (2.5)*	4
5/8 x .025	16 x 0.65			3*	4*
3/4 x .020	19 x 0.50	4		3	4
3/4 x .022	19 x 0.55	4		VP (2.5)	4
3/4 x .025	19 x 0.65			3*	4*

FOOD BANDSAW - FROZEN FISH

Designed and manufactured with a less aggressive hook angle and lighter tooth set to increase yield further for critical waste loss applications. The hardened tooth tip has a unique bright finish (normally black) to avoid staining of light coloured product. Ideal for portion control work.

WIDTH & THICKNESS		TEETH PER INCH
inches	mm	
5/8 x .014	16 x 0.36	3*
5/8 x .016	16 x 0.41	3*
5/8 x .020	16 x 0.50	3*
5/8 x .022	16 x 0.55	3*

FOOD BANDSAW - STAINLESS STEEL

For use when adhering to strict food standard health requirements. Manufactured from the highest quality grade 420 stainless steel with unique corrosion resistance.

Precision Ground, Food Processing Bandsaw & Bandknife Blade
37% Cleaner Cut, Superior Yield

FOOD BANDSAW - CARCASS SPLITTING

Specially developed steel provides unique characteristics for each specific carcass splitting use such as, high tensile strength and wear resistance for cattle; or increased high temperature toughness for pigs. Each precision ground bandsaw gives aggressive, fast, straight and long lasting cutting. The vari-pitch (VP) blade has a unique gullet clearing tooth which ensures an extra clean cut and also reduces noise.

WIDTH & THICKNESS		TEETH PER INCH			
inches	mm	pig		cattle - sow - buffalo	
3/4 x .022	19 x 0.55	VP (2.5)	3	VP (2.5)	3

FOOD BANDSAW - HANDSAWS

Precision ground, bright carbon steel bandsaw with unhardened teeth for general purpose handsaw applications. Coil stock can be cut to length to produce popular handsaw blade sizes.

WIDTH & THICKNESS		TEETH PER INCH
inches	mm	
3/8 x .022	10 x 0.55	10
1/2 x .022	13 x 0.55	10

FOOD BANDKNIFE - GENERAL PURPOSE

Available in a variety of edge types for use in many applications such as baby leaf harvesting, fish filleting, poultry portioning, boneless processed meat and bread slicing plus machine specific use such as Grote and Grasselli. Food bandknives create almost no waste material.
